antoniolupi

A photograph of a modern building facade during dusk or dawn. The sky is a gradient of blue, purple, and orange. The building's dark, angular facade features the brand name "antoniolupi" in large, white, illuminated letters. In front of the building, several small trees are planted in white pots along the curb.

antoniolupi

1950/2024

Dal 1950 una storia tutta italiana di ricerca, design, qualità e passione.

Una storia fatta di coraggio e passione, di intuizioni e costanza, di individualità e partecipazione, in una sola parola di visione. La visione non è mai mancata nella storia di quella che oggi è antoniolupi ma che molti anni fa nasceva dall'intuito di Antonio Lupi, il padre dei quattro fratelli che oggi guidano l'azienda. Come tutte le storie di successo non è stato un percorso semplice, tutt'altro, è stato un cammino tortuoso, fatto di tappe importanti, di parziali cadute, di riprese, di consolidamento, di affermazione. Una storia basata sulle idee, quelle giuste, spesso vincenti, sempre innovative.

Antonio Lupi, nato a Vinci, il paese di Leonardo, inizia nel 1950 la sua attività in un piccolo magazzino di Fucecchio, a pochi chilometri dall'attuale sede di Stabbia. A soli 18 anni avvia la produzione di cristalli e vetri per l'arredo; è un momento di svolta per una famiglia di origine contadina, una vera rivoluzione in un territorio, quello della Val d'Arno, nel quale le attività tipiche interessavano settori molto diversi.

Antonio inizia a proporre ai suoi clienti i suoi primi prodotti, dai ripiani per comodino alle prime vetrinette e si costruisce una piccola rete commerciale. Dai vetri agli specchi per il bagno il passo è breve, anche se complicato. Siamo negli anni 60, gli anni del boom economico che ha radicalmente cambiato il volto del nostro paese e ha avviato una radicale trasformazione delle tipologie dell'abitare, con il passaggio epocale dal bagno in comune, alla stanza privata presente in ogni casa. Il successo è immediato e l'azienda si espande rapidamente trasformandosi da terzista in produttore di arredo bagno con il nome di Cristal Lupi Luxor.

Nel 1969 la Cristal Lupi Luxor apre a Stabbia il nuovo stabilimento. È il definitivo passaggio dalla dimensione artigianale a quella industriale, da Lupi arrivano a lavorare oltre 300 persone (quasi tutte di Stabbia o degli abitati vicini) e il radicamento tra l'azienda e il luogo si fa ancora più intenso, quasi indissolubile. Il successo dura per parecchi anni, l'offerta si amplia rapidamente comprendendo oltre agli specchi anche lampade, piccoli accessori e perfino accappatoi. All'inizio degli anni 80 in una situazione di mercato molto cambiata e con l'azienda che ha difficoltà ad adeguarsi al nuovo che avanza, entra in azienda Andrea, Patrizia e Nello già sono in Azienda, la prima all'ufficio acquisti/gestione fornitori, l'altro alla consociata francese a Cannes, nata per presidiare il mercato francese (Sergio, il più piccolo, nato nel 1977, entrerà ovviamente molti anni dopo). Andrea girando per Clienti si rende conto che la direzione dell'Azienda che è ormai in crisi, non è più quella giusta e anche contro il parere di Antonio, riesce, con pochi investimenti a presentare al Cersaie del 1983 una piccola collezione di sistemi di arredo bagno. Il successo è immediato, è l'opportunità per ripartire...

I fratelli lo seguono, nasce la Gilly (nome ispirato ad un noto Caffè fiorentino), il padre per ora li guarda da lontano, non li segue subito, intuisce che i suoi figli stanno diventando grandi e hanno bisogno di "fare da soli". In realtà è troppo orgoglioso della sua creazione e non riesce ad abbandonare la nave anche quando è irrimediabilmente andata alla deriva. È testardo, come tutti in famiglia, e ci vuole un po' per convincerlo ma alla fine i figli lo fanno sentire importante, lo coinvolgono, lo rendono partecipe del progetto e lui si rimette in discussione, riparte da capo. Il suo nome conta ancora nel territorio, quello che ha fatto, per molti, non si cancella. Riparte viaggiando per proporre gli articoli della nuova Antonio Lupi... Siamo nel 1988 e da un paio d'anni l'azienda aveva cambiato nome in Antonio Lupi Collezione Bagno. Antonio ne è il Direttore Commerciale, Patrizia è saldamente all'Amministrazione, Nello e Andrea fanno tutto il resto. Il successo è rapido e costante e presto la nuova azienda ha bisogno di spazio. Nel 1991 Antonio Lupi torna a Stabbia, ricomprando parte dell'antica fabbrica nel frattempo andata all'asta. Si riparte da lì, dalla vecchia sede della produzione ma con nuovo slancio, nuove idee, nuove strategie. L'azienda cresce rapidamente e si sviluppa dai vincoli dettati dai produttori dei sanitari iniziando a presentare i primi lavabi e articolando la propria offerta. Parte da quello che sa fare meglio, dai lavabi in vetro integrati nel piano, ma già dopo pochi anni l'azienda è in grado di proporre la prima collezione di lavabi in ceramica dalle forme geometriche essenziali. È l'avvento del minimale che culminerà nel 2002 con la prima collezione in Corian® e con lo sviluppo dell'idea del bagno completo e sartoriale. Anche con l'avvento dei nuovi materiali l'azienda non dimentica quelli tradizionali come la pietra, il marmo, protagonisti di molte altre collezioni. Da allora è tutto un susseguirsi di innovazioni e di collezioni di successo, l'Azienda che ha sposato la ricerca della bellezza, della funzionalità e della sartorialità e ne ha fatto il suo dna, propone costantemente nuove linee e nuovi materiali anche frutto della sua ricerca interna, trasformando il concetto stesso di ambiente bagno.

Nel 2007 a un anno dalla scomparsa di Antonio e della moglie Mara, viene rivisitato il logo aziendale. Un'operazione importante perché si è deciso di citare la grafica del marchio originario ma allo stesso tempo valorizzare l'affermazione di un brand che è oggi garanzia di qualità, bellezza, passione per l'ambiente bagno.

Oggi antoniolupi mette a disposizione dei propri clienti tutto quanto concorre a dar vita a un total look elegante e raffinato, proprio come Antonio aveva sognato all'inizio della sua avventura. I suoi figli hanno realizzato il sogno e la storia può solo continuare...

1950/2024

Since 1950 an italian story about research, design, quality and passion.

A story of courage and passion, of intuition and perseverance, of individuality and participation, all summed up in a single word: vision. The vision has never lacked in the history of what today is antoniolupi, born many years ago from the intuition of Antonio Lupi, father of the four siblings whom lead the company today. Like all success stories, it was not a simple path, it was a tortuous journey made up of important stages, partial failures, come backs, consolidation and affirmation. A story based on ideas, the right ones, often victorious, always innovative.

Antonio Lupi, born in Vinci, the town of Leonardo, began his activity in 1950 in a small warehouse in Fucecchio, a few kilometers from the current headquarters of Stabbia. At the age of 18 he started the production of crystals and glass for furnishings; it is a turning point for a simple family, a real revolution in an area, that of the Val d'Arno, in which the typical business activities involved very different sectors.

Antonio begins to offer his customers his first products, from bedside shelves to the first showcases and a small sales network is built. From glass to bathroom mirrors is a short step, even if complicated. We are in the 60s, the years of the economic boom that has radically changed the face of our country and has started a radical transformation of dwellings, with the transformation of a shared bathroom to the private bathroom present in every home. The success is immediate and the company expands rapidly, transforming itself from a subcontractor into a bathroom furniture manufacturer with the name of Cristal Lupi Luxor.

In 1969 Cristal Lupi Luxor opens the new factory in Stabbia. It is the definitive transition from an artisanal dimension to industrial. More than 300 people come to work (almost all from Stabbia or from the nearby settlements) and rooting between the company and place becomes even more intense, almost indissoluble. Success lasts for several years, the offer expands rapidly including, in addition to mirrors, also lamps, small accessories and even bathrobes. At the beginning of the 80s, in a very changed market situation and with the company having difficulty in adapting to the new one that is advancing, Andrea, Patrizia and Nello begin working in the company. The first in the purchasing / supplier management office, the other to the French subsidiary in Cannes established to protect the French market (Sergio, the youngest, born in 1977, will obviously enter many years later). Andrea visiting clients realizes that the management of the company, now in crisis, is no longer the right approach and even against the opinion of Antonio, succeeds with little investments to present a small collection of furnishing systems at Cersaie in 1983. Success is immediate, it is the opportunity to start again...

The siblings follow their father's footsteps and the company Gilly is born (name inspired by a well-known Florentine Caffè), for now the father watches from afar, he doesn't follow them immediately, he senses that his children are growing up and they need to "go at it alone". In reality he is too proud of his creation and is unable to abandon the ship even when he is irretrievably drifting. He is stubborn, like everyone else in the family, and it takes a while to convince him. Finally the children make their father feel important, they get him involved, they make him a participant in the project and he gets back into the discussion, starting over again. His name still counts in the territory, what he did for many cannot be erased. He starts traveling again to propose articles of the new Antonio Lupi ... We are in 1988 and for a couple of years the company had changed its name to Antonio Lupi Bath Collection. Antonio is its Commercial Director, Patrizia is firmly in Administration, Nello and Andrea do the rest. Success is rapid and constant and soon the new company needs space. In 1991 Antonio Lupi returns to Stabbia, buying back part of the old factory that had gone to auction. It starts from there, from the old production site but with new impetus, new ideas, new strategies. The company grows rapidly and frees itself from the constraints dictated by the manufacturers of sanitary ware, starting to present the first sinks and articulating its offer. It starts from what it does best, from glass sinks integrated into the top, but after just a few years the company is able to offer the first collection of ceramic sinks with essential geometric shapes. It is the advent of the minimal style that will culminate in 2002 with the first collection in Corian® and with the development of the idea of a complete and sartorial bathroom. Even with the arrival of new materials, the company does not forget the traditional ones such as stone and marble which are protagonists of many other collections. Since then it is a series of innovations and successful collections, the Company that has embraced the search for beauty, functionality and tailoring has made it its DNA, constantly proposes new lines and new materials, also the result of internal research, transforming the concept of the bathroom environment. In 2007, one year after the death of Antonio and his wife Mara, the company logo is revisited. An important operation because it was decided to mention the graphics of the original brand but at the same time enhance the affirmation of a brand that is today a guarantee of quality, beauty and passion for the bathroom.

Today antoniolupi makes available to its customers everything that contributes to giving life to an elegant and refined total look, just as Antonio had dreamed at the beginning of his adventure. His children realized the dream and the story can only continue...

"Lavoriamo con persone che fanno cose fantastiche, artigiani che sanno trasformare la materia come artisti rinascimentali, che la conoscono, la curano, la valorizzano. Dobbiamo solo aiutarli a far sì che non smettano mai di amarla".

"We work with people that do wonderful things, artisans who can transform materials and take care of them as if they were artists from the Renaissance. We just need to help them to keep loving what they are doing".

showroom stabbia

Completamente ricostruito, ampliato e rinnovato, dopo l'uragano che lo aveva distrutto nel 2014, lo showroom aziendale si presenta con una esposizione di ben 2300 metri quadrati, completata da una grande sala riunioni che accoglie i visitatori nelle molteplici attività programmate durante l'anno, dalla mostra al convegno, alla presentazione di prodotti fino al pranzo o alla cena. Lo showroom è visitabile tutto l'anno su prenotazione.

Completely rebuilt, expanded and renovated after the hurricane that had destroyed it in 2014, the company showroom has an exhibition space of 2300 square meters completed by a large meeting room that welcomes visitors in the many activities planned during the year, from exhibition to meetings, to the presentation of products as well as lunch or dinner. The showroom can be visited throughout the year upon reservation.

antoniolupi

showroom milano

Piazza Lega Lombarda

Nel 2018 lo showroom antoniolupi di Porta Tenaglia ha raddoppiato i suoi spazi per una presenza importante in una Milano sempre più internazionale. Concentrandosi sulla particolare conformazione dello spazio, il piano terra di una elegante torre progettata negli anni '50 dagli architetti Baselli e Portaluppi, gli architetti hanno deciso di lavorare sulla scatola architettonica dello showroom. Lo spazio che si sviluppa soprattutto in lunghezza, evoca la sequenza di tante sale da bagno che l'una dopo l'altra, si offrono allo sguardo per essere ammirate, anche dall'esterno delle quattordici vetrine a tutta altezza. Il nuovo soffitto, costituito da volte architettoniche volutamente irregolari e 'appese' al fondo scuro, regala profondità a tutto lo showroom. Volutamente gli archi non coincidono né con gli spazi né con le vetrine. Un gesto di libertà rispetto a certe simmetrie spaziali.

In 2018 the antoniolupi showroom in Porta Tenaglia has doubled its spaces for an important presence in an increasingly international Milan. Focusing on the particular shape of the space, the ground floor of an elegant tower designed in the 1950s by architects Baselli and Portaluppi, the architects decided to work on the architectural box of the showroom. The space that develops above all in length, evokes the sequence of many bathrooms that one after the other offer themselves to be admired, even from the outside of the fourteen full-height windows. The new ceiling, consisting of deliberately irregular architectural vaults and "hung" to the dark background gives depth to the whole showroom. The arches intentionally do not coincide either with the spaces or with the windows. A gesture of freedom with respect to certain spatial symmetries.

design_AL Studio

Su Colormood viene applicato un trattamento che offre un'elevata resistenza alle macchie oltre ad avere eccellenti proprietà tecniche ed estetiche. La finitura data conferisce alle superfici un esclusivo tocco vellutato, una resistenza unica ed una straordinaria purezza estetica, estremamente opaca, anti-impronta, resistente ai micrograffi superficiali, non riflette la luce ed è in grado di adattarsi perfettamente a qualsiasi progetto di interior design. Colormood è disponibile in un'ampia gamma colori, per offrire ad architetti e designer infinite possibilità progettuali ed estetiche e realizzare così progetti migliori adatti alle esigenze dei loro committenti.

A treatment is applied to Colormood that offers high resistance to stains as well as having excellent technical and aesthetic properties. This finish gives the surfaces an exclusive velvety touch, a unique resistance and an extraordinary aesthetic value, extremely opaque, anti-fingerprint, resistant to micro-scratches on the surface, does not reflect light and is able to adapt perfectly to any interior design project. Colormood is available in a wide range of colors, to offer architects and designers infinite design and aesthetic possibilities and therefore create better projects suited to the needs of their clients.

Con il Colormood è possibile realizzare, lavabi da appoggio, lavabi free standing, top, top integrati e vasche, come da nostro campionario colori

Colormood is used to create top mount sinks, freestanding sinks, tops, tops with integrated sinks, and bathtubs, as per our colour samples.

CRISTALMOOD

design_AL Studio

Resistente come la pietra, trasparente come il cristallo

Resistant as stone, clear as crystal

Il Cristal mood è una resina di nostra creazione che viene colata manualmente negli stampi. Gli oggetti una volta estratti, devono essere rifiniti manualmente mediante carteggiatura per togliere tutte le imperfezioni sia all'interno che all'esterno. Come se fosse di pietra, ogni prodotto risulta così unico, le leggere differenze di colore, di dimensione, o le piccole bolle d'aria che possono formarsi, danno anima e autenticità ad ogni oggetto.

Cristal mood is a resin of our own creation that is manually poured into molds. Once extracted, the objects must be finished manually by sanding them to remove all imperfections both inside and out. As if it were made of stone, each product is unique, the slight differences in color, size, or small air bubbles that can form, give soul and authenticity to each object.

ICEMOOD

ARENA

2013

design_Nevio Tellatin

ARENA è il nuovo lavabo con sistema TROPPOPIENO AUTOMATICO INVISIBILE. La piletta si apre automaticamente al raggiungimento del livello di sicurezza PREDEFINITO, permettendo all'acqua di defluire.

ARENA is the new washbasin with an AUTOMATIC INVISIBLE OVERFLOW system. The drain opens automatically when the PRESET safety level is reached allowing the water to drain away.
