We also work with the world's most celebrated fashion designers: creating unique hand painted silks for their collections.

Jenny Packham

Matthew Williamson

In order to remain at the forefront of the market we are constantly pushing the boundaries of what is possible.

*Any detail can be embroidered
by hand to create a simultaneously
fluid yet unique detail on the design.*

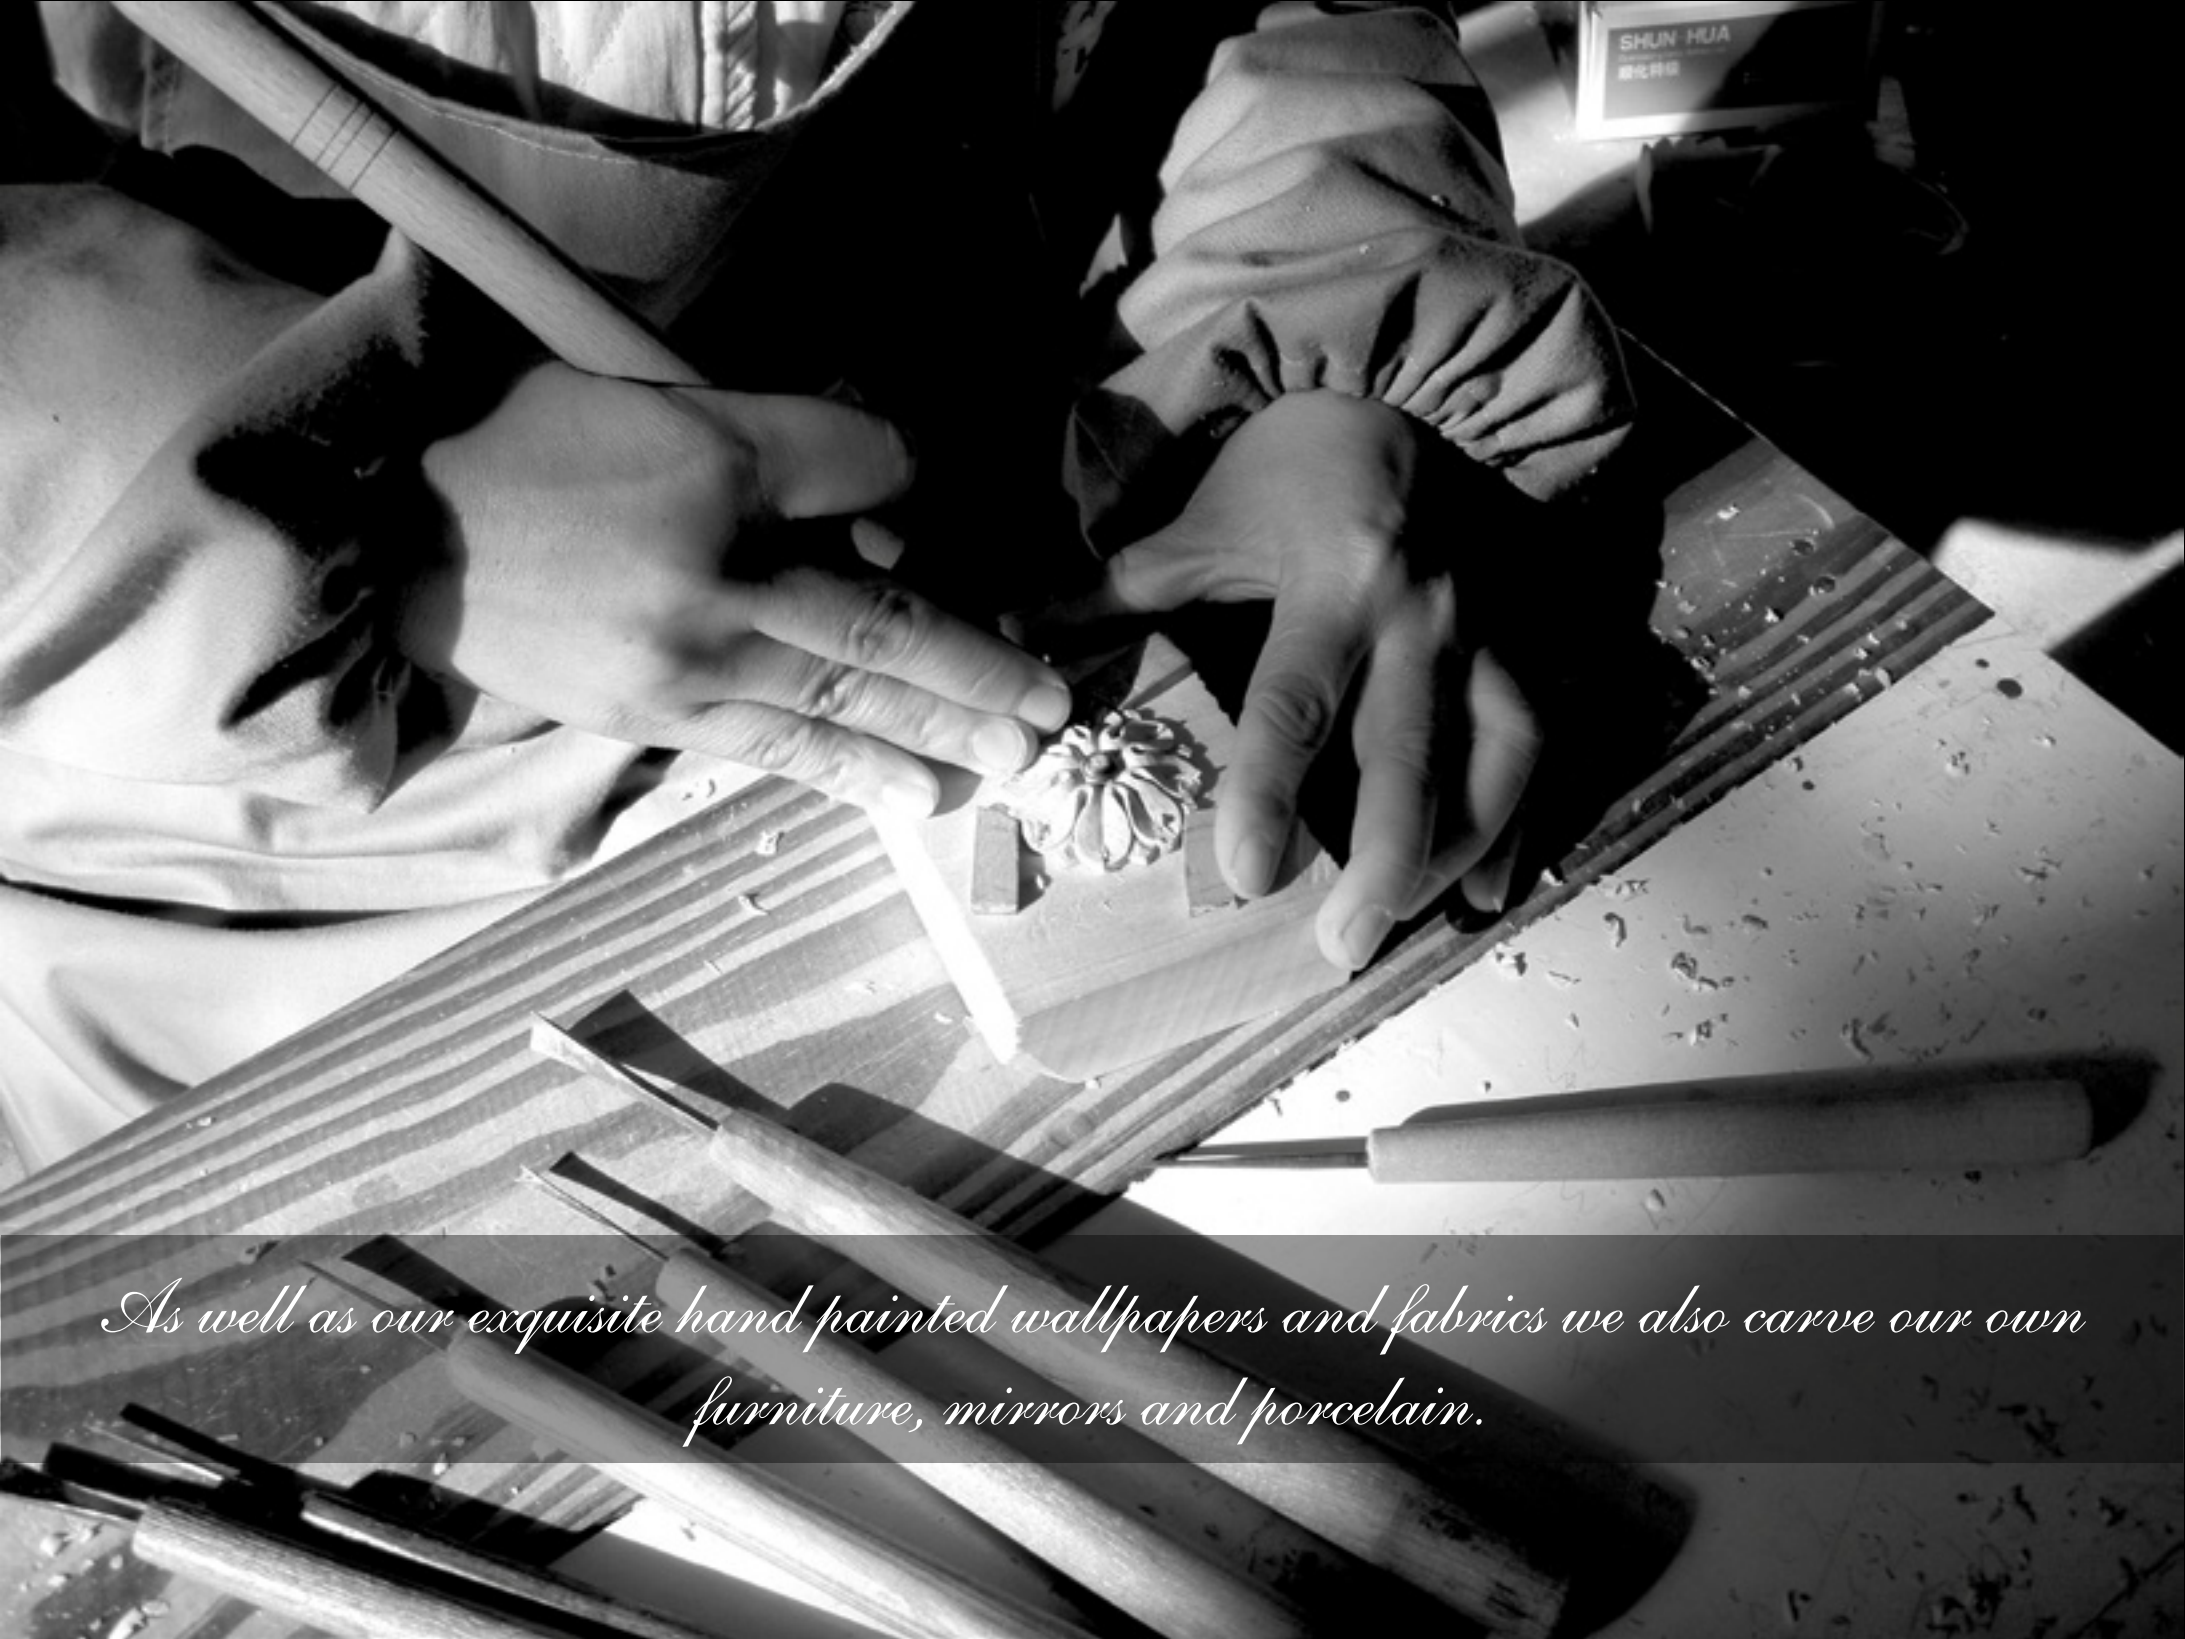

Raised Relief Metallic Wallpaper

We created our raised metallic wallpapers through an innovative technique which allows us to create 3D design elements. The process is entirely created by hand.

Badminton wallpaper with rose antiquing

We have created a process where it is possible to create different levels of antiquing on any of our metallic grounds.

As well as our exquisite hand painted wallpapers and fabrics we also carve our own furniture, mirrors and porcelain.
