GESSI the Sustainable COMPANY

Gessi belongs to its territory and since its inception has a mission to respect it. The factory, surrounded by 800.000smq of park, features high-efficiency lighting, ventilated eco-thermal panel systems, water recycling system, 4 hectares of photovoltaic panels that produce clean energy fuelling the workshop, avoiding any CO2 from emission

BEAUTIFUL made

Craftsmanship encloses all the beauty of our products, culture and identity. Knowledge, tradition, novelty and technology: essential ingredients for reaching the high quality and creativity that characterize the Gessi collections.

the Private Wellness

Gessi's philosophy of Private
Wellness allows the bathroom to overcome its traditional function as a functional

place without aesthetic relief, to become a style and a regeneration room. Here, thanks to the provision of new tools or a reinterpretation of customary ones, the user can spend quality time for his/her body and mind, to the point that the bathrooms become real private spas. If water, in its various forms, induces balance and well-being, the Private Wellness Lifestyle, aims to allow the consumer to exploit the potential of this precious element, and realize a "salus per aquam", health through water, daily, inside the bathroom.

The company is proud to have people with a strong sense of belonging, a feeling of inclusion that increases the involvement and personal value in the activity that takes place every day in the Gessi Family.

Gessi does take care of all the people who are part of this reality, through a substantial commitment on the local territory, with welfare initiatives that characterize its success.

*Family STORY

The company is a family story, born in 1992 from the genius of founders Umberto Gessi and his son Gian Luca, who believed in the mission of bringing a sense of private wellness through products with unprecedented technological innovation and iconic design style. In the recent times, Nicolò and Emanuele joined the family, who now comprises over 650 employees worldwide.

Gessi Bathroom Collection

Evoking the motion of the fan by means of progressively opening parts, the overlapping shapes underscore a unique interplay of light.

From the tapered lever to the smoothly opening spout, from the conical base to the body that connects right angles and curves – it all exudes balance.

The essential nature of life is encapsulated in the wall lever in the Ventaglio collection. Water springs forth from a simple, natural gesture that reassembles the duality of opposites.

THE NEW CHAPTER OF A STORY TOLD IN THE LANGUAGE OF FASHION

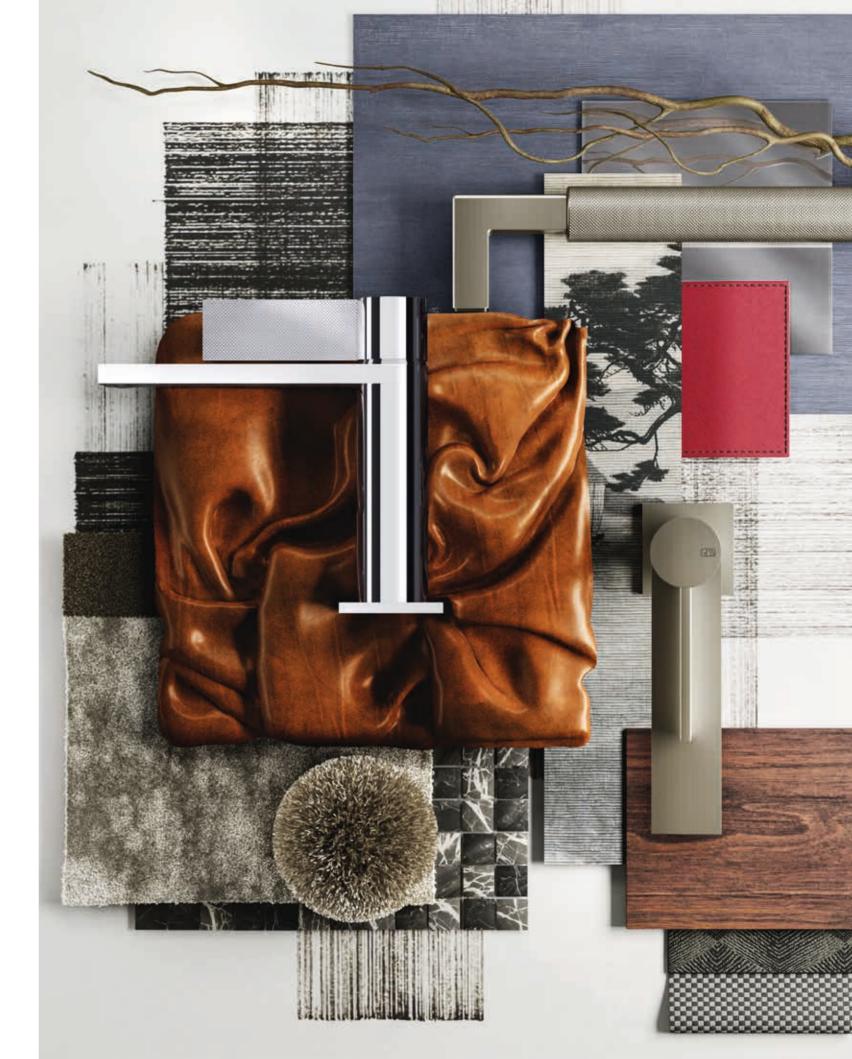

GEOMETRICAL SHAPES UNITED IN AN INDISSOLUBLE UNION

Like the Gessi 316 collection, where the metal is literally "dressed up" with precious patterns and finishes, INVERSO also encloses the elements that define the brand, from the rectangle to the circle, which, in an oxymoron, contrast in complete harmony: the cylinder of the body combines with the square base on which it rests, the super-thin spout and the decorated lever, leading to extremely light and clean shapes, an emblem of minimalism and pure lines.

DIANA NATATO AND LIGHT REFLECTIONS

Inspired by the metal meshes experimented by famous designers such as Paco Rabanne first and then Versace, the diamond texture recalls the fluidity of water, the luminous waves struck by the sun's rays and their sinuous movements. Its surface shines like that of a jewel decorated with diamonds, whose facets enhance the purity of a nature of unshakable beauty. The diamond becomes synonymous with strength and, at the same, time preciousness. Its allure of contemporary elegance envelops the bathroom with seductive reflections. The DIAMANTATO decor enhances the quality of manufacture and GESSI's expertise in metalworking. The skilful hands of the craftsmen working for GESSI forge the material, following the various steps, from cutting to faceting to polishing, with the same care and accuracy as diamond cutters.

RIGATO

AND THE PLAY OF PERSPECTIVE LINES

RIGATO evokes the rigour of a tailored suit, the refined exquisiteness of a high fashion garment. It conveys confidence and a reserved attitude to exchange with other decorations and materials. For this reason, it is suitable for formal environments but also for those characterised by relaxed intimacy. Like an item of clothing that shows the personality of the person wearing it, more serious or more joyful depending on the circumstances, it characterises spaces with discretion. The assonance with the world of fashion reflects the philosophy of GESSI's Haute Culture, an expression of maximum experimentation in terms of material, form and technique, which is realised in the appreciation of the creativity of those who design and forge those lines every day. The lined texture of the decoration is a sensory stimulus for sight and touch that suggests a pleasant and relaxing softness.

ORIGINI WARM

FOR PEOPLE

CIPRIA DARK BRONZE

ROUND DECORATIVE ELEMENTS AS A MARK OF UNIVERSAL EXPRESSION

WHO ARE ROMANTIC INTIMACY, WHO ARE ROMANTIC AND KIND

CIPRIA DARK BRONZE

WARM BRONZE

BRONZE

The round decorative element is interchangeable on the different components and is also available in the ART version, where delicate, elegant compact Cipria tones accentuate the curves. The graphic decoration binds together the polished/ matt effects and the darker highlights of the warmer triad.

ORIGINI ACCENT FOR COSMOPOLITAN, OUTGOING, DARING INDIVIDUALS WHO APPRECIATE THE VALUE OF CONTRAST.

An expression of non-conformism,

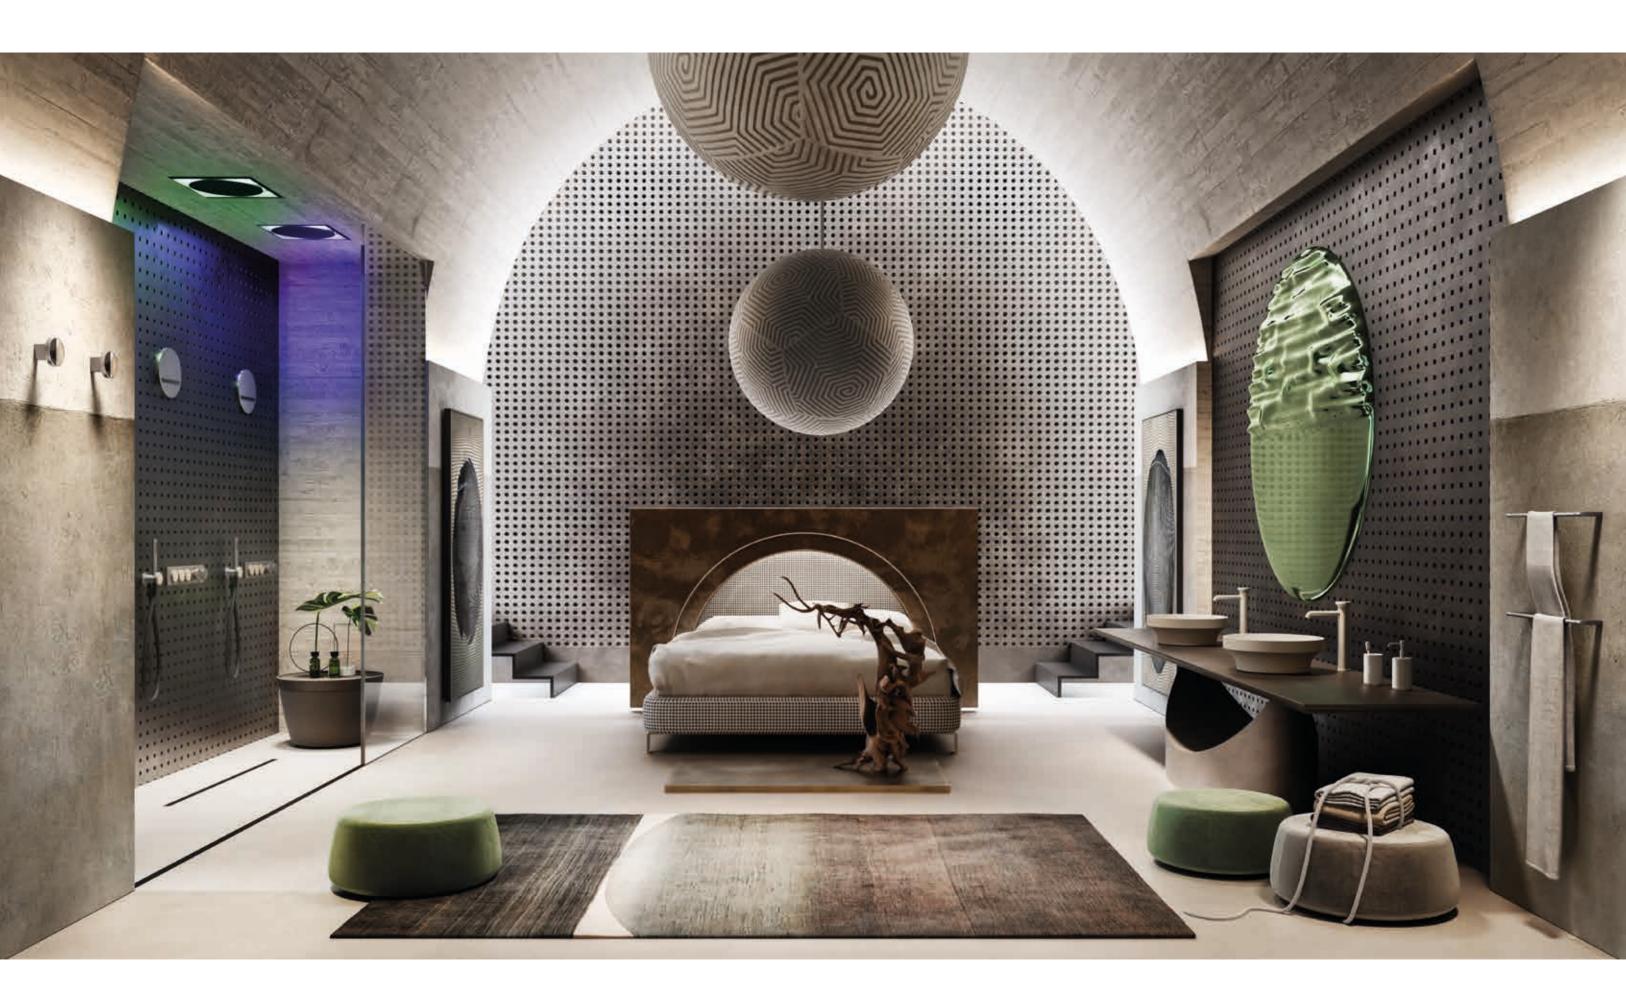

the ACCENT triad allows one to be

daring when defining spaces, sin-

ce it asserts water's leading role. It would be a pity to envisage it only in bathrooms, now that new lifestyles allow for greater freedom of expres-

sion.

32 Gessi Bathroom Collection - ORIGINI 33

ORIGINI MATERIC

FOR TRADITION-LOVING. DOWN-TO-EARTH, PEOPLE WHO DO NOT COUNT THE SECONDS

A contemporary rendition of origini, the MATERIC triad, in which the shapes are geometric and the materials traditional, is the one that most creates a bridge between past and future. Coral cotto and black metal in a polished version acquire an innovative identity and, alongside the predominantly lustrous copper, establish a dialogue with new monochromatic surfaces employed in architecture.

COR

AGAVE BLACK **METAL** CHROME

ORIGINI NATURE

FOR BIOMANIACS. UTOPIAN INTELLECTUALS AND NATURE LOVERS FROM ALL OVER THE WORLD

Suitable for timeless atmospheres, the NATURE triad is metamaterial, since the green that represents it is not only a colour but also the philosophy for those who cherish nature and wish to live sustainably. Agave green in chlorophyll tones alongside the two neutral brushed black and chrome metals create a triad that is highly adaptable. It is recommended that it be combined with natural materials from all over the world such as rattan and teak, as well as with new generation sustainable materials. Full compatibility with all plants, from bamboo to ferns, goes without saying.

MATT BLACK

The charming patterns of Trame and Intrecci, through the exclusive manufacturing of the stainless steel, create pieces of special taste, perfect for who loves essentiality, but wants to give to the bathroom a touch of refinement that is high-tech, decorative and warm.

GESSI 316 DESIGN_GESSI STYLE STUDIO GESSI PATENT

STYLE AND PERSONALIZATION

The rounded profile of Programma Gessi 316 becomes a modern classic, a total reinterpretation of great elegance and novelty. A collection rich in variety, open to stylistic interpretations and customization possibilities.

THE GRACE AND THE HARMONY **OF ROUND SHAPE**

The round shape is a hallmark of Gessi's classical stylistic code of "signs", and strongly characterizes his history of design. Being a perfect shape, that absolutely transcend styles and fashions, the round gives to the bathroom a special grace and a contemporary harmony. Gessi was able to write a new story for this shape, infusing it with an astonishing conceptual freshness that makes it present and unexpected.

FLESSA

EXPRESSIONS OF TASTE

Inspired by the desire to fulfill aspirations of style, personalization and wellness in the modern bathroom, the Gessi 316 total looks transform the most private room of the house into the expression of personal taste and daily wellness.

davidrockwell 5

The most perceptive consumers are expressing the need for a return to authenticity, and a desire to surround themselves with products that exude a feeling of reliability, true depth, and quality. They want products perfected over a long time with a purposeful aesthetic that arouses emotions. Gessi's goal was to conceive a unique line of products that could fully embody the emotions of the skillful specifics of old era brassware manufacturers while making it fresh and contemporary by infusing it with modern architectural taste and the most advanced metal processing technology. To leave an impressive mark, typical of a global style leader, Gessi looked to the designers that had attained the most outstanding achievements in the application of warm-modern and elegantly industrial aesthetics in the design of interiors and objects, establishing a collaboration with architect David Rockwell and his award-winning firm Rockwell Group. The result of the creative collaboration between Gessi and David Rockwell is the amazing Inciso Collection of bath fittings and accessories.

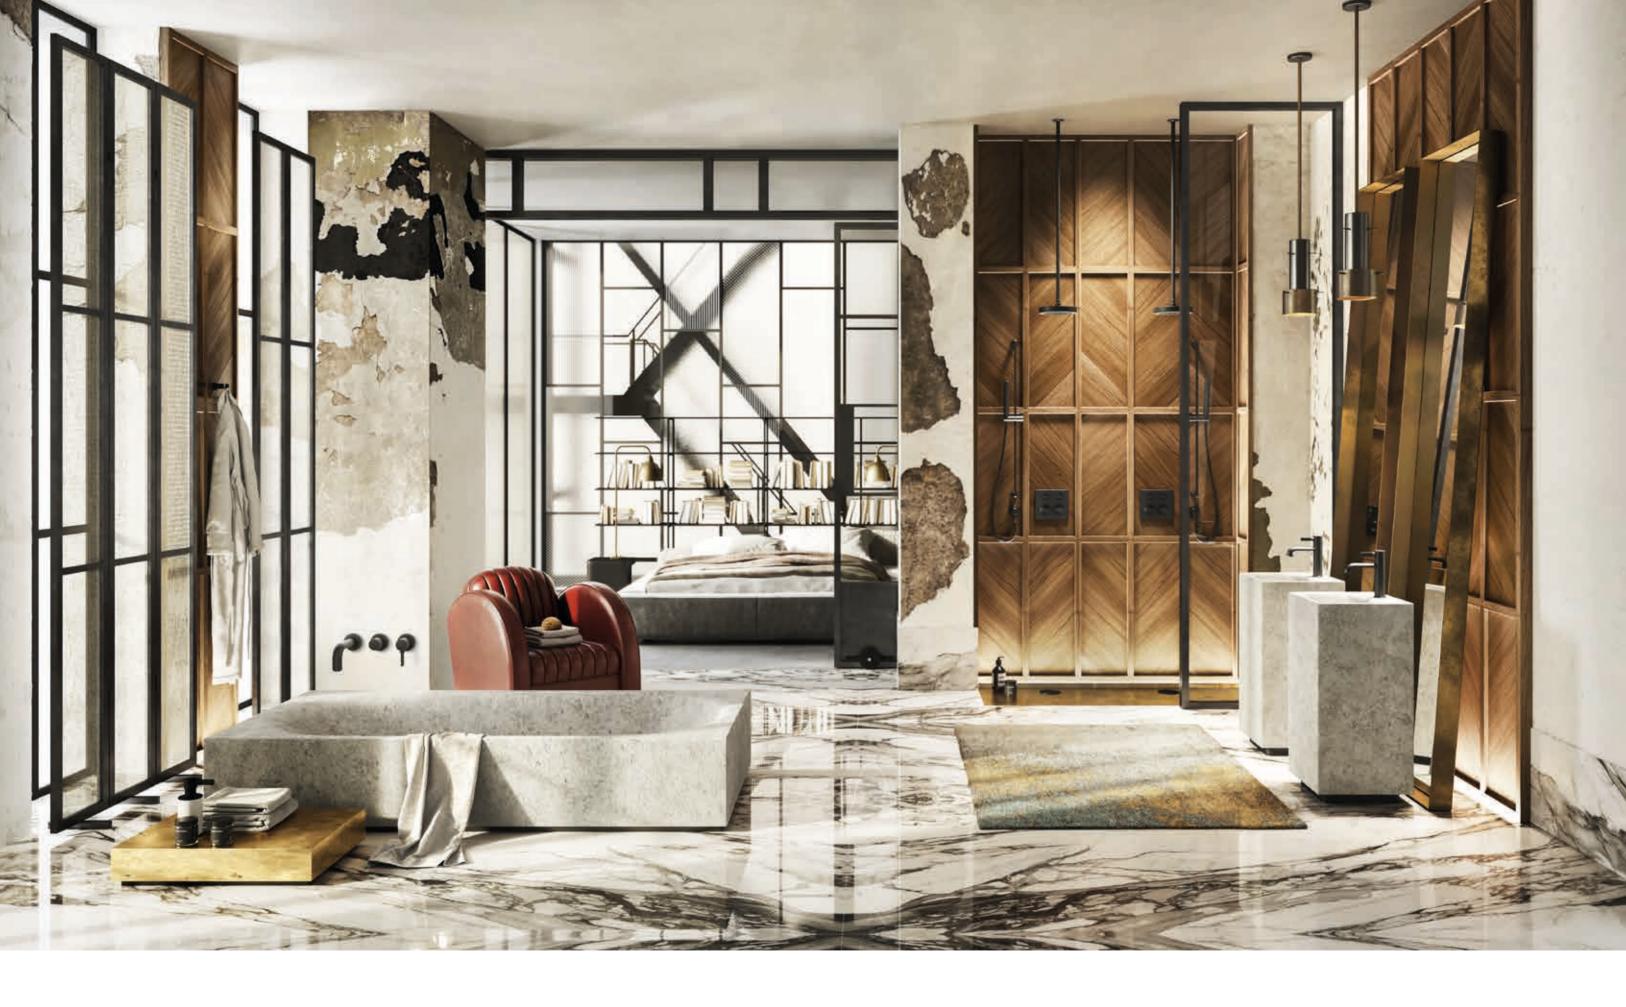

INCISO David Rockaul

The Inciso collection is made of solid brass, and is available in a large number of finishings, including black, nickel and bronze. Inciso can be easily customized by mixing different texture inserts and finishings, providing a wide variety of combinations that are suitable for any bath environment. Whether in a residential or commercial setting, Inciso line of bath fixtures offers sinks, bathtubs, showers and accessories.

Through the creativity and innovation of both companies, the David Rockwell for Gessi suite of products interprets a uniquely American ethos, by instilling it with a typical italian flair.

Gessi Bathroom Collection - INCISO 61

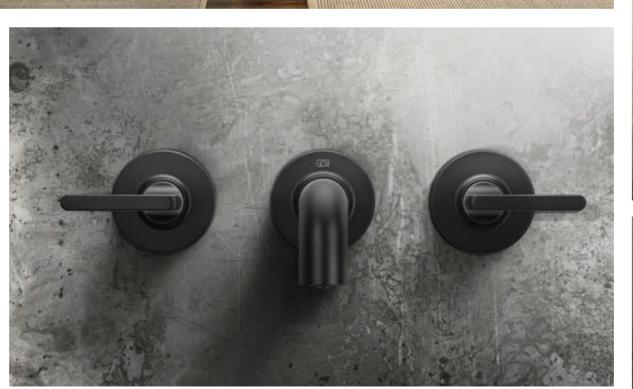

INCISO

Inciso, the collection of faucets and accessories designed by David Rockwell for Gessi, channels the honesty of traditional craftsmanship and the American spirit by bringing a new visual language to the contemporary bath-scape. The line's clean modern forms are consistent with the tradition of Gessi, while its highly customizable and fully flexible features are suitable for many environments, being them residential or dedicated to hospitality.

The formal gestures of early plumbing fixtures and the refined, architectural sensibility of modern metalwork inspired Inciso's distinguished profile. With sculpted contours paired with smooth surfaces and textured patterns, the collection achieves captivating allure in alignment with Gessi's philosophy, which is to enrich intimate living spaces with beautiful, well-made objects that remain reliably functional.

VENTI20

THE VENTI2O COLLECTION BREATHES NEW LIFE INTO SIGNATURE ELEMENTS THE '20S

With carefully dosed retro notes, yet doing away with nostalgic replicas, are known for – the detailing, the iconic style, the playful essence. The collection ingests the enthusiasm for life and future-looking optimism of that era and infuses it into the most private spaces of contemporary living. In this visionary outlook lies the recipe for a new appreciation of style and improvement to people's lives today.

The future belongs to those who believe in the beauty of their dreams. The uncertainty of recent times has filled us with angst, making it ever-more important to create positive moods though a new approach to the poetry of living, a new path to beauty, and a freeing of the imagination to dream of the future. Positive emotions become sources of wellness, a wellspring of rebirth.

LÁZARO ROSA-VIOLÁN E

Careful attention to the detail and form of the sink mixer is balanced by an aspiration for simplicity. Venti20 fully captures the allure of the '20s, evoking pleasant visions of light-hearted celebration. The choice of a particular colour or line, like a precious jewel, captivates you in the moment and inspires you for a lifetime.

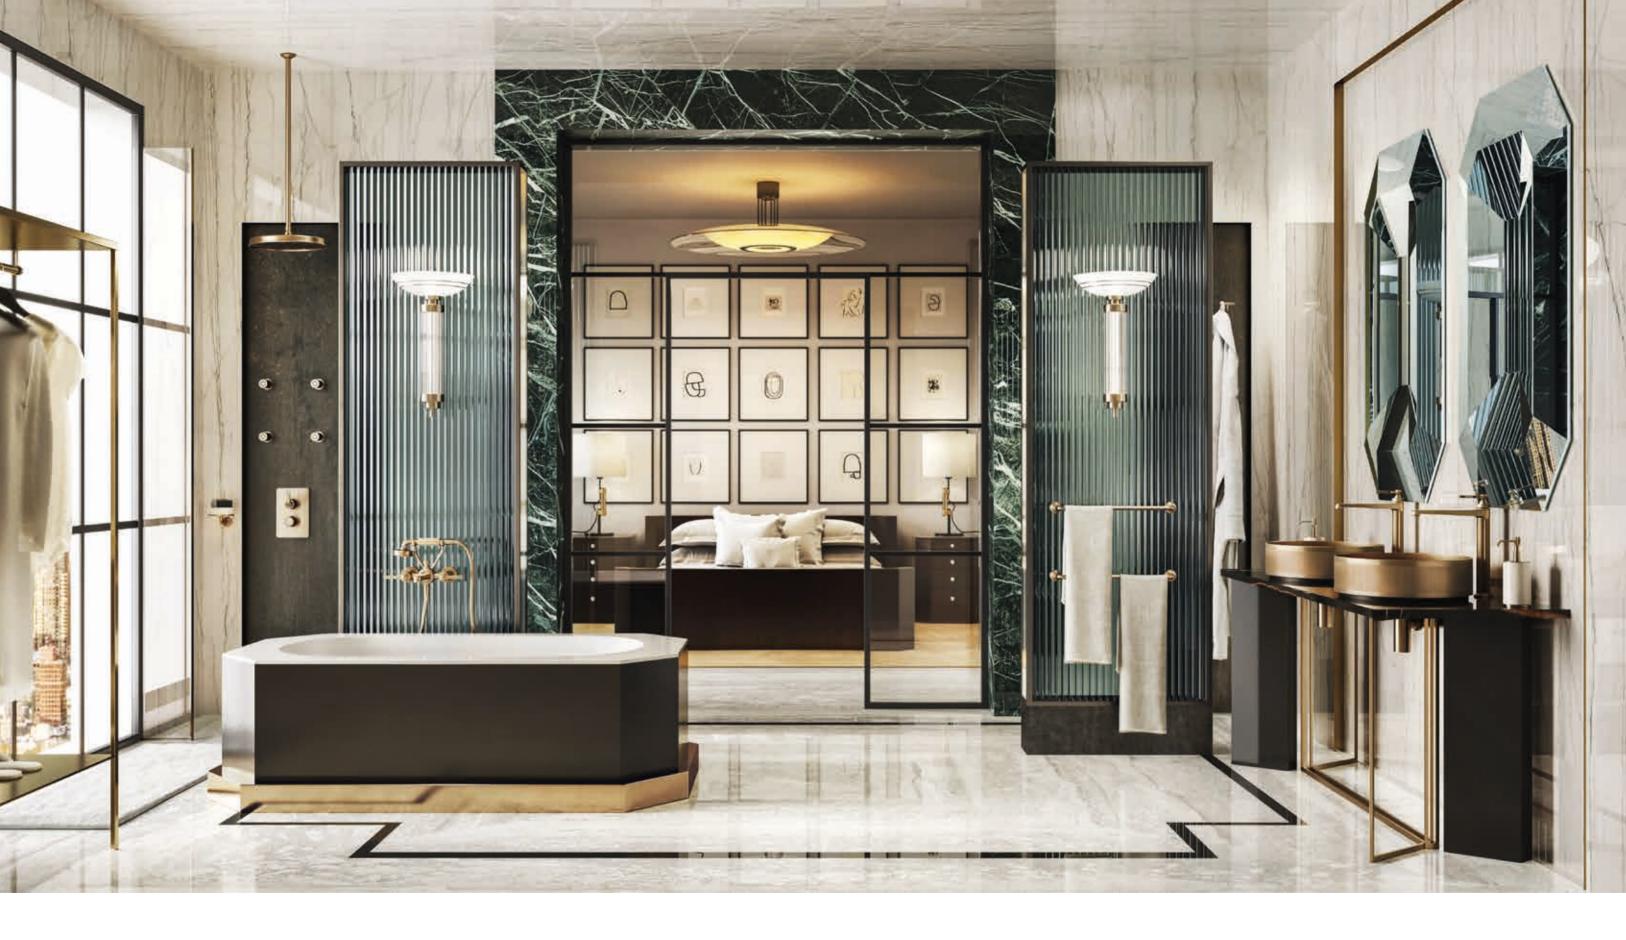

72 Gessi Bathroom Collection - VENTI20 **73**

Gessi Bathroom Collection - VENTI20 **75**

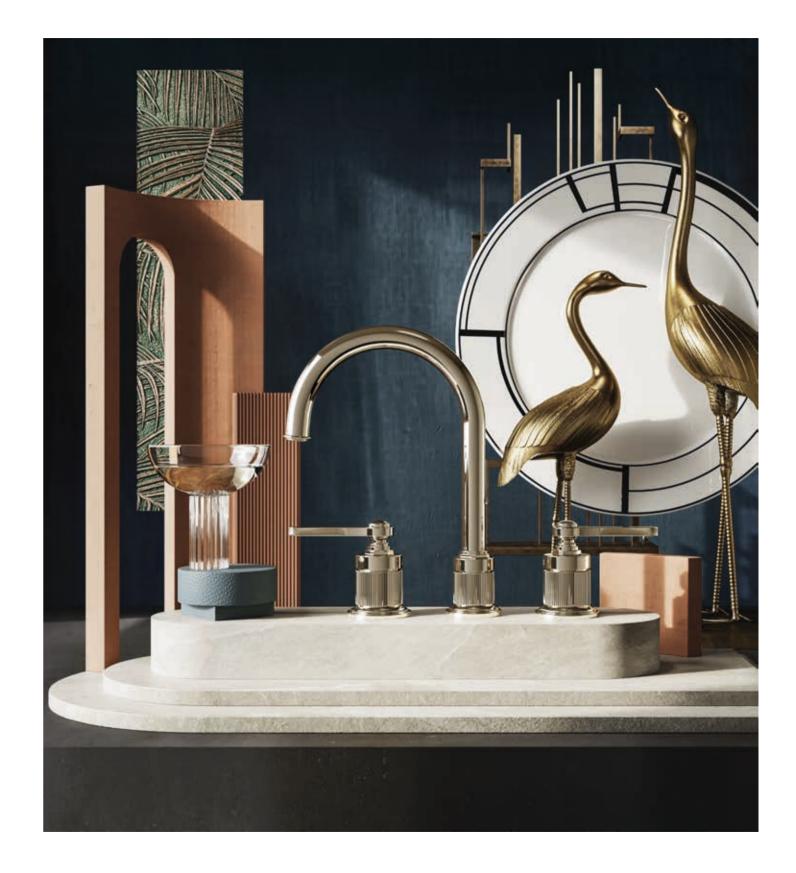

VENTI2O

New forms and original details come together in a classic yet contemporary blend. The visionary Venti20 ceiling spout embodies the chic cleanliness of minimalist design. The Collection's utmost attention to detail is crystallised in the highly technical and aesthetic virtuosity of the remote mixer with its extraordinary detailing, the result of talented and dedicated craftmanship.

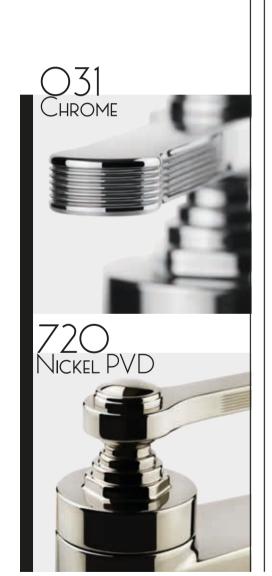

Elegantly detailed profiles pair with simple, pure lines to work together as a functional, contemporary work of art. The meticulous workmanship of the handles and at the base of the long umbrella spout recall a classic style reimagined for a new era.

LA DONNA ANELLO

LOVE IS THE PERFECT DEFINITION OF BEAUTY. TOGETHER FOREVER.

UNIQUE & PRECIOUS, JUST LIKE

JEWELRY

In this version, Anello is presented in the warm bronze finishing: prestigious, precious and elegant, to show off in attracting attention as a not underestimated temptation. The bronze color gives light and refers to the nuances of nature in order to transform a

design item into something much more luxurious. Through PVD technology, bronze is a highly resistant finishing that acquires further value, thanks to the combination of a circular and refined shape of a ring.

: antique brass that adds a touch of authenticity while elegantly highlights and enhances the silhouette of the design. Gold, black and brown tones reinforce and contrast the decorations, highlighting the outlines. To obtain the antique look, the process begins with the sandblasted brass, first painted in gold, then in black or brown, afterwards highly skilled craftsmen brush the surface manually, bringing to light the golden tones.

A TRIBUTE TO THE **ATTENTION** TO DETAIL

A slender and supple body, in this version Anello can be admired in Chrome finishing. The handle ring jewel is transformed into a distinctive element, thanks to the combination of the decoration and the smooth surface of the body. Characterized by a mirror polished effect, chrome is a great timeless classic in the bathroom and guarantees versatility and unlimited creativity thanks to its purity.

FROM SUIT TO SUITE, DRESSING THE BATHROOM WITH STYLE

For Coco Chanel "fashion is not something that exists only in the form of clothes. Fashion is in the sky, in the streets, fashion has to do with ideas, the way we live". GESSI takes it to the most intimate room of living. Woven Metal, which has already been used for the creation of emblematic GESSI collections, with its evocative power of the world of finishes, high lights the craftsmanship. The purity of each of the textures, the result of indepth studies and a complex and elaborate production to "dress the metal", becomes distinctive.

The Woven Metal, distinctive sign of a tailoring system

120 Gessi Bathroom Collection - HABITO 121

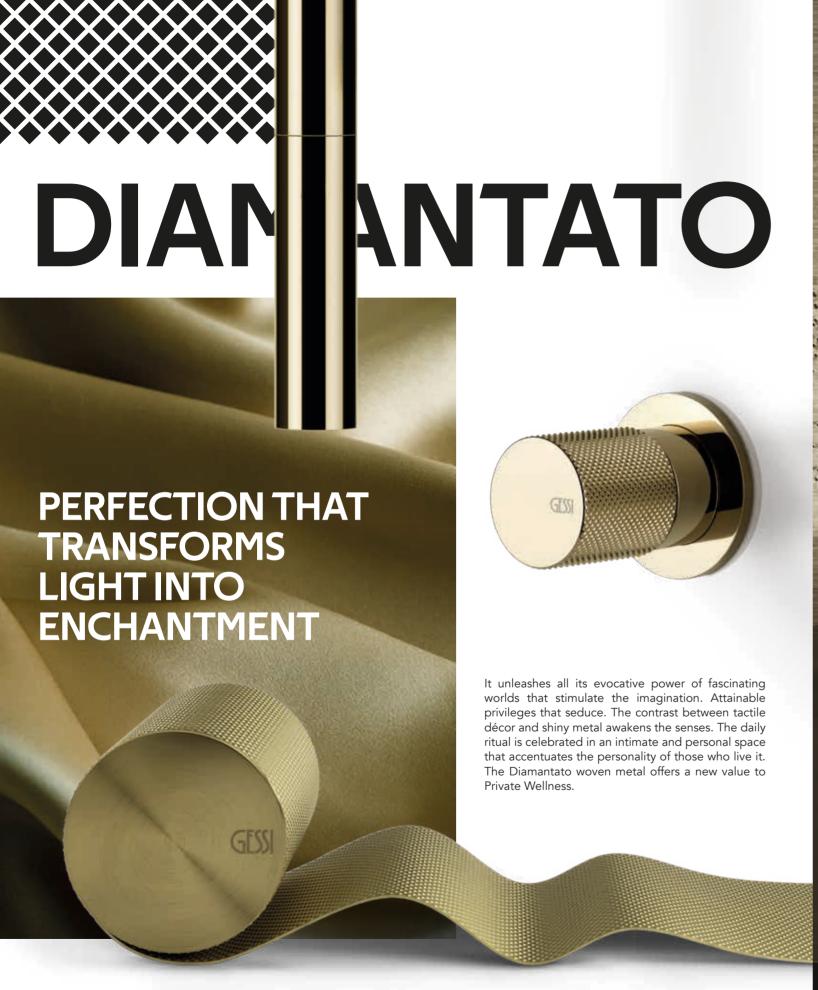

Rigato evokes the rigour of a tailored suit, the refined exquisiteness of a haute couture garment. It conveys confidence and a reserved attitude to exchange with other decorations and materials. For this reason, it is suitable for formal environments but also for those characterised by relaxed informality. Like an outfit that reveals the personality of the wearer.

RETTANGOLO

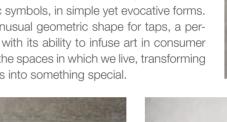

The original design that has become an icon

"Where do I want the water to come from?"

From the floor, the ground, the wall, the ceiling? This is the revolutionary question posed by Gessi in 2000, at a time when all taps were mere support valves at the bottom of the washbasin.

To bring to life this unprecedented aspiration — moving the flow of water to wherever we desired — Gessi thought up a radical design based on the purity of an absolute, strong and rigorous form: abstraction in its essence, like parallel lines traced on a designer's sketchbook, in any form.

RETTANGOLOK

FRESH, DIFFERENT AND BEAUTIFUL

Breaks in objects, as those that occur in life, shall be emphasized with a shining mark, as they result in the true essence of a story. This is why a disruption can generate an even more powerful form of beauty: what breaks becomes more precious, as it is unique. This is very true for Rettangolo K, since the design concept of the Line consists in cutting the celebrated solid body of the Rettangolo faucet with a transverse line that fractures it, subverting its iconic silhouette and creating an inedited angle. A new light redesigns the illustrious silhouette of Rettangolo and the result is amazing: while the object retains the accomplished harmony of the original figure, it is fresh, different, and absolutely beautiful.

RETTANGOLOK

"THE ICON" GENERATES A NEW WORK OF ART

From a breakage or cut, in life as in things, new ideals of beauty and perfection can arise. Leaving the confidence of a design which was considered unchanging because perfect in shape, Gessi dares to move beyond usual and consolidated, crushing the shape of Rettangolo with an oblique cut, a diagonal line that breaks it and changes its silhouette, reshaping its iconic outline by evoking a "K".

The result is astonishing: the object preserves its original harmony, but it is new, different and beautiful. A new work of art.

A DESIGN GRACING **EVERY ENVIRONMENT**

The hybrid nature of the design, with its ability to join rounded and straight geometries, makes Rilievo easily matchable with both round and square shapes, and perfectly fitted in extremely diverse environments, being them minimalistic or decorative. The nimble aesthetic versatility of Rilievo is an advantage for a product conceived for functional and elegant bathrooms, in the world of hospitality as well as in private residences.

RILIEVO

A CONCEPT OF TIDINESS AND HARMONY

If harmony, based on order, is dictated by a geometrical ratio between parts, the maximum expression of purity of form is the intersection of a circle with a square - according to HBA's belief. This geometric and architectural symbol has been considered greatly evocative through time and across continents and cultures. As the circle evokes eternal movement, the square symbolizes eternity and immutability. The coupling of these two geometries becomes the dynamic image of purity: the transition towards perfection and equilibrium. Indeed, a circle inscribed into a square is the theme that Rilievo by HBA for Gessi brilliantly brings to life, gracing both touch and sight to make the bathroom a haven of body and soul rebalance. A new balance between style, emotion and functionality.

The embossed round relief under the handle, besides representing an absolute aesthetic innovation, stands as both an ergonomic and sensory element of great tactile pleasantness.

RILIEVO

Gessi has always coupled the advantages of high quality design with technological excellence to emphasize style and wellness in the bathroom. Design is conceived to work on emotion as well as to improve technical performance in using water for wellness. The Hi-Fi range represents the highest attainment in the Gessi aesthetic research for the shower as it aims to elevate it to a haven of well-being.

Gessi Bathroom Collection - HI-FI 175

High-precision

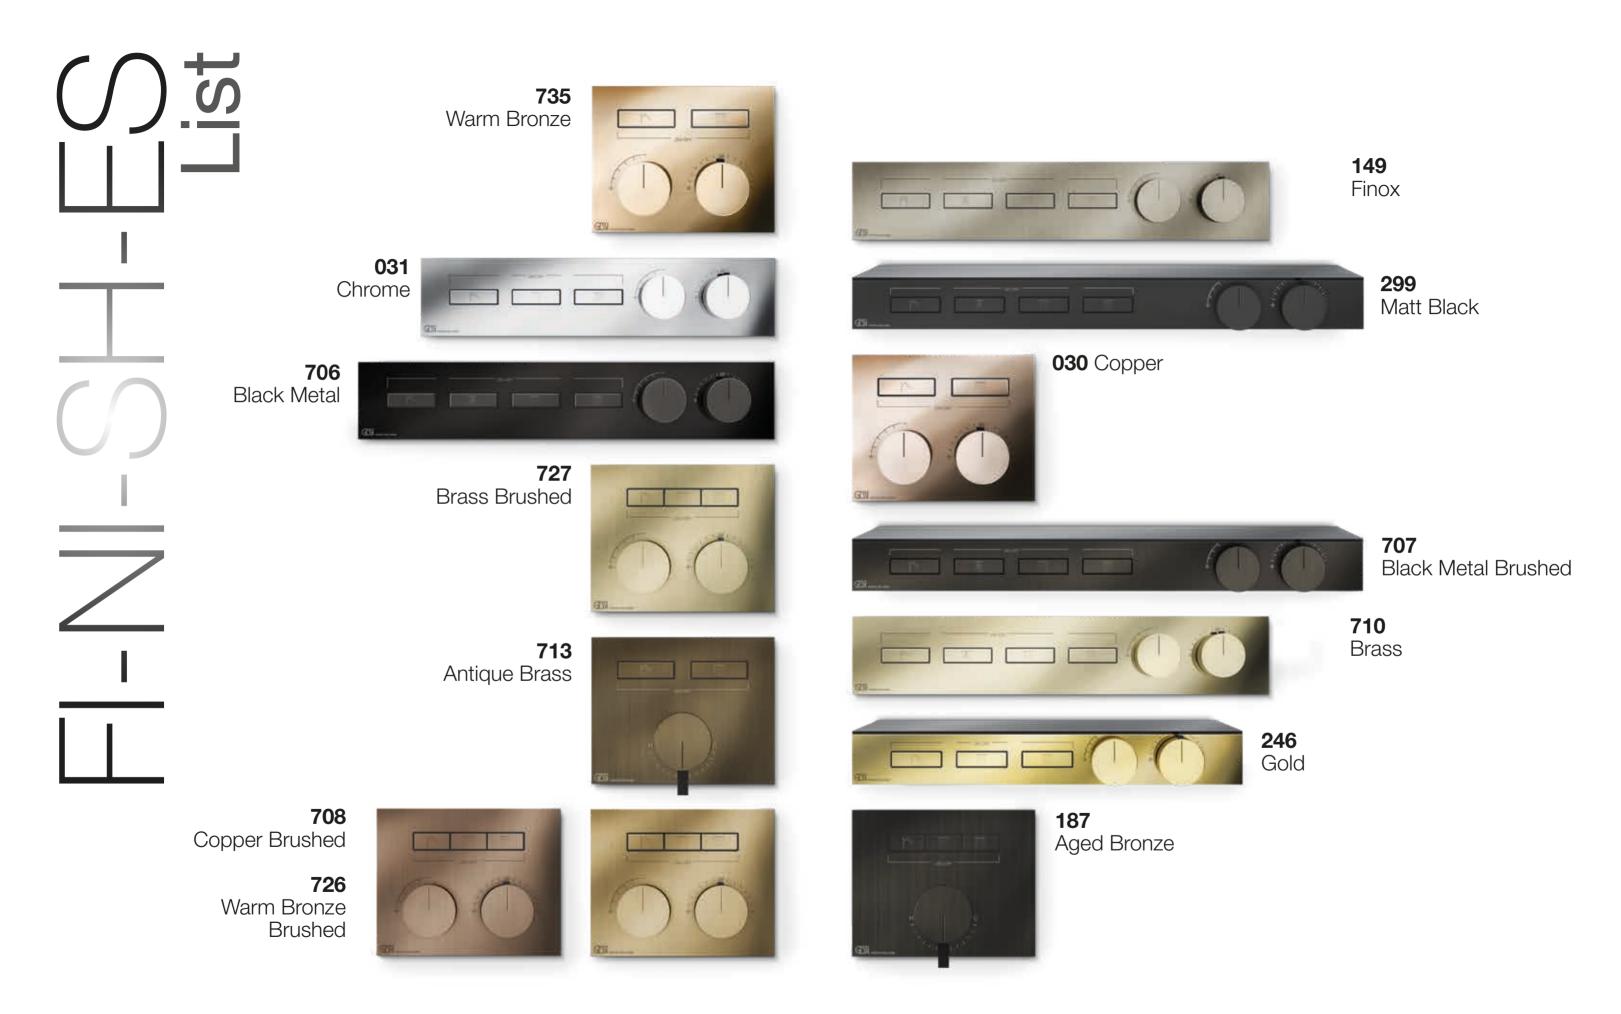

The flow control knobs are equipped with a precision "tick" rotation system inspired by the adjustment crown knobs of high-end watches. They also evoke the cylindrical handles for the tuning and volume so typical of the sound systems of the analogic control era.

The symbolic value of the bathroom, the Room devoted to water

The bathroom is the most intimate space in the house; that is where the individual locks in and looks at him/herself in the mirror, developing the concept of the body. The bathroom is the home of our inner world and a place with strong symbolic values. It is in fact a place devoted to water, an element that gives wellbeing by evoking unconscious deposits of a primordial state of homeostasis. The design and technology in the bathroom are oriented to the elevation of this fluid element: shapes are imagined to enhance the properties of water, its attractive power and its pleasantness.

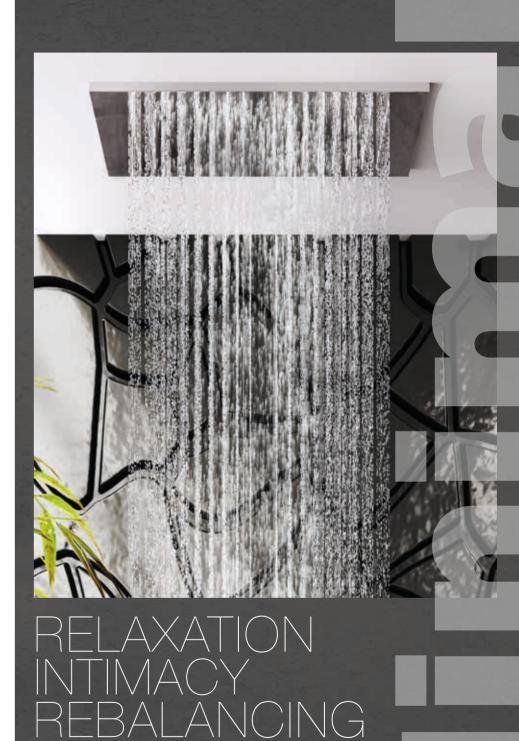

Gessi's technological and stylistic research proposes a substantial aesthetic and technological upgrade of the shower along with a large range of innovative, amazing products.

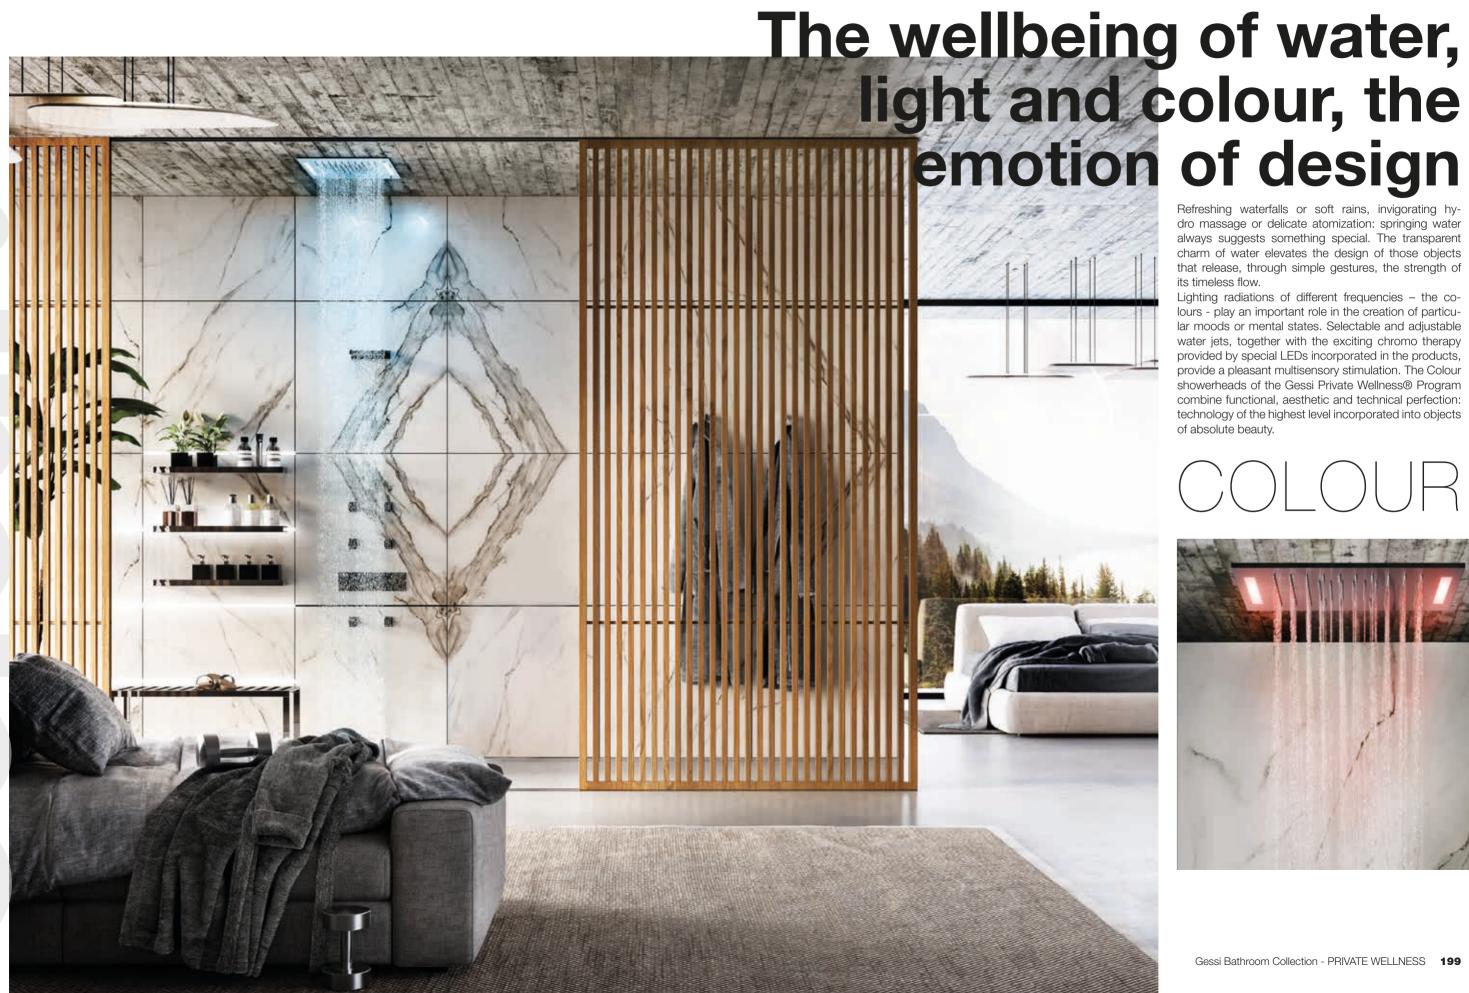

Matter, form and function sublimate themselves in the Gessi Private Wellness® Program, a concept in which the archetypal signs of Gessi design, the circle, the square, the rectangle, generate objects with an elegant and empathic pre-

Minimali are a family of shower heads that offer advanced wellness functions in refined essential designs. They set themselves like jewels with functional use, in the environments dedicated to the wellbeing provided by water.

'Acqua feeling'

The double density in the distribution of the nozzles on the showerheads surfaces, a central waterfall slit, atomizers positioned in ergonomic positions ensure a most intense perception of water during a shower and real wellness

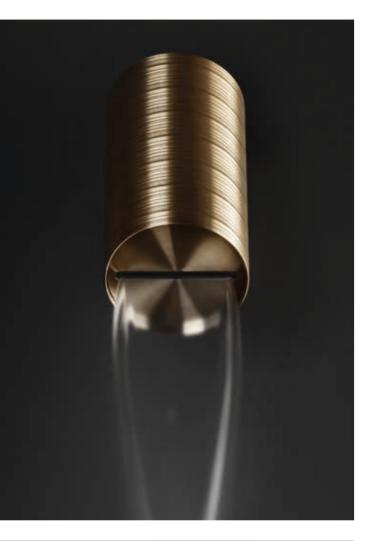

dro massage or delicate atomization: springing water always suggests something special. The transparent charm of water elevates the design of those objects that release, through simple gestures, the strength of its timeless flow.

Lighting radiations of different frequencies - the colours - play an important role in the creation of particular moods or mental states. Selectable and adjustable water jets, together with the exciting chromo therapy provided by special LEDs incorporated in the products, provide a pleasant multisensory stimulation. The Colour showerheads of the Gessi Private Wellness® Program combine functional, aesthetic and technical perfection: technology of the highest level incorporated into objects of absolute beauty.

and decorative touch.

In the diversity of nature's watery grace, waterfalls with their graceful patterns and awesome geometric shape present a reassuring sense of order and healthfulness. Their intrinsic aesthetic qualities improve the mood and especially relaxation comes from water producing motion, sound and fresh ionized air in its free fall. Besides these emotional features, waterfalls produce a beneficial deep tissue massage on the shoulders and neck or ankles. The eye gracing Cascata Collection of the Private Wellness Program®, bring the sensations of these incredible natural wonders within the private bathroom for a daily enjoyment, and they even enhance the awe of waterfalls with stunning, very diverse designs, and, in some models, with embedded shining lights.

The beauty of water in its subtlest form

Sleek and slim as a blade, measuring only 3 mm (about a tenth of an inch thin), Tremillimetri showerheads and shower column offer a distinctive low-key profile. In fact, water seems to form magically on the surface of the showerhead, as if it formed in thin air. The slender wall-mounted showerheads of the Collection are available in rounded or square profile versions and come with cascade waterfall and regular shower modes. A version is also available with a LED white light. The shower columns comprise all imaginable functions, including light and atomization - in their award winning, minimalistic design. Ideal for contemporary environments, these skinny showerheads feature a special super polished stainless steel mirror finish, offering the user the experience of infinite reflections of water.

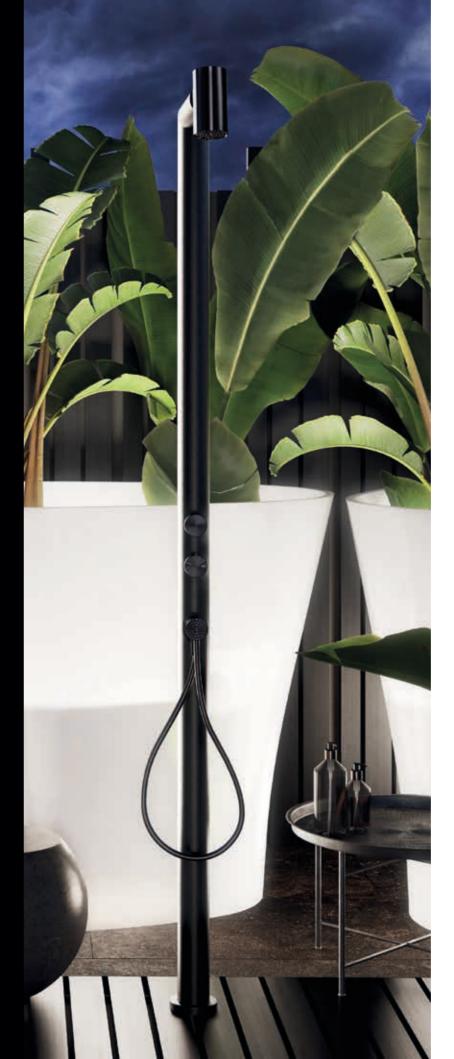

204 Gessi Bathroom Collection - PRIVATE WELLNESS **205**

ATTENTION TO DETAIL

With Outdoor, Private Wellness is immersed in nature, in the open air, without sacrificing design and technology.

PRIVATE WELLNESS® OUTDOOR

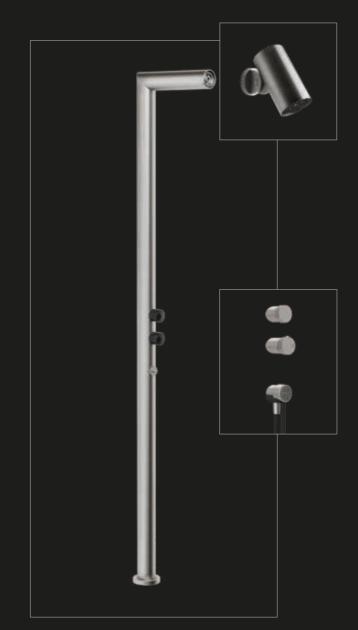

A space to feel at home, even outside the domestic walls. The G01 line of the Outdoor Wellness program includes a series of completely customizable solutions: a versatile, tailor-made product, designed for those who want to enjoy a valuable experience even in daily activities. A shower able to become the protagonist of the environment, thanks to the numerous possibilities offered by the combinations of finishes. The tubular shower structure is available in brushed stainless steel, matte black, or corten, and gives the flexibility of combining the handshower, valves, and showerhead in a variety of finishes. Why not take a moment of invigorating relaxation with a snowy background, between the whiteness of the snow and the warmth of the fire?

SHOWERG

THE SHOWER WEARS A TAILORED SUIT

The total look in the most intimate place of living expands: for the first time, GESSI customises the hardware of the shower enclosures, thus bringing the functional components to a higher aesthetic level. Gessi brings elements that are generally hidden in the spotlight, enhancing the details and making them haute couture objects, such as jewellery or tailored clothes, to be worn in the wellness area. The most intimate living environment is thus embellished with elements that give beauty, pleasure and well-being in every detail, in a complete set dressed by GESSI.

SWING SYSTEM

THE SPOTLIGHT IS ON FABRIC METAL

Woven Metal embellishes the different elements for openings and fixings, such as hinges and clamps, which can be combined with all the solutions and sizes of the made-tomeasure, redefining proportions in a new key, recalling the iconic shape of Gessi, the Rettangolo.

NEW PROPORTIONS ENHANCE LINEARITY

The linear drains are made with an external visible plate embellished, in the central cover, with decorations and textures, and in all the Gessi finishes. Elegant elements available in a wide range of sizes to meet all design needs.

The absolute elegance of the purest

Rigato evokes the rigour of a tailored suit, the refined exquisiteness of a haute couture garment. It conveys confidence and a reserved attitude to exchange with other decors and materials. This is why it suits formal environments but also those characterised by relaxed informality. Like a dress that lets the personality of the wearer shine through. Its texture allows mix and match that gives shape to a new creative freedom. The formal cleanliness is tempered by the sensory pleasure of contact with the smooth button.

GESSI

Intimately elegant, the round and the square recur as signs of recognition. No longer just innovative functional systems but real design furniture items, thanks to the 'metal fabric' that makes each element more precious and refined. The most sumptuous of textures is worked in such a way as to achieve the effect of an infinite number of diamonds on the surface. The result is as bright as a brilliant sky of stars. It emphasises the pleasure and beauty of 'woven metal', an original GESSI idea.

ORIGINI

GESSIS:

I metalli total look

Tondo

A noble and precious material

Steel is a noble and precious material, long lasting and strongly visual. It evokes strength and elegance, enhancing bathrooms with sophisticated and hi-tech refinements. Thanks to design's style and creativity, Gessi managed to infuse steel with a totally new perceptibility, giving to a traditionally technical and emotionless material a previously unknown warmth. Gessi has enriched the sparkling brightness of pure metal by means of attractive shapes, unprecedented surface treatments and finishings of contemporary charm, increasing steel's versatily and extending the range of its possibilities in the customization of spaces.

The pleasure and the emotion of design

An extreme attention to details, the perfect harmony of lines and proportions and the consequent formal cleanness, are the characteristic features that make the Gessi's products unique.

The washbasins of the I Metalli collection share in fact that very essential geometric beauty, purity of shapes and harmony of proportions that make Gessi's taps and accessories brilliant solutions for the home, enhancing the expressive power of every bathroom.

Inciso by David Rockwell, Rilievo by HBA, the gleaming steel of Gessi 316, all the latest, multi-award winner creations of Gessi available in an electronic hi-tech technology.

Gessi's sophisticated minimalism of design acquires an advanced technology that combines beauty of lines with the functionality of "no touch" electronics. The water supply doesn't need to be handled or touched, as it can be switched on by a move as simple as the passage of the hand on the sensor.

GESSI EMPORIO

Emporio Gessi Via Manzoni has a great engaging strength in its balance of contrasts, intersection of rays with a precise curving with gently squared profiles.

A seducing object that makes the natural charm of the water seductive.

VIA MANZONI

Gessi Bathroom Collection - EMPORIO 245

VIA TORTONA

With the grace of a slim and smooth shape, Emporio Gessi Via Tortona has the versatility and charm of immediacy and high-level design. A daily gift of empathetic elegance.

Designed by Gessi Interior Design Studio in order to satisfy the needs of style in different environments and realized in the leading technology and eco-friendliness plants of Parco Gessi, every Emporio collection is sophisticated and modern. Emporio Gessi Design focuses on lightness and slender shapes, projected into space. This concept comes from the cohesion between minimalism and grace, essential accuracy and contemporary design. It combines, in an original way, soft and strict shapes, arches and gently squared profiles: different solutions of balance between essential lines and well-proportioned curves.
