THE STORY OF PMP FURNITURE

It all started 30 years ago by opening our own furniture shop in the city of Dordrecht, The Netherlands. By the age of 20 and 25 we were both young and relatively unexperienced but very ambitious. After a bit of a rough start, the shop was running pretty well and we felt there were more business opportunities for us.

In our search for new furniture and new markets we ended up in Poland where we met one of our current business partners, Jurek Chorostkowski. At that time, Jurek had a small workplace where he made wooden furniture components. We started developing several chair frames that we sold to one of our store suppliers. Before we knew it, we had a good client base who bought our chair frames. Nevertheless, we tried to upholster some chair frames ourselves with two fabric colors. One thing led to another and from that moment we started manufacturing our own furniture. Suddenly we were in the chair business and our business grew rapidly. We got bigger clients and the small workplace in Poland became a more decent production company. Still the production company was relatively small, so we had to run more shifts to produce the requested number of chairs. We saw the demand in the market changing from standard models in two colors to more bespoke furniture. Another new opportunity that we wanted to take advantage of. So we decided to adjust our business. We invested in production facility in a new industrial zone located in

Nowa Sol. New technologies abled us to adjust much faster to new trends. At that time when we only produced chairs, we started participating in a number of fairs. We had to buy tables to present our chairs at these fairs and that didn't feel right. That was the reason for us to start with the production of tables. Thanks to the great knowledge of our business partner Jurek, we were able to set up our own table company at the location where we used to produce our chairs.

Nowadays we also produce our own sofas and armchairs. We have set up a second company in Poland with other business partners. This company is run by Łukasz Rutawski and his sister Agata.

Business operations from design to after-sales take place at our head office in the Netherlands. We currently work here with almost 30 people and a few of them are family related. So it's probably no coincidence that we went in business with other family companies.

We believe that our informal way of working combined with a warm familial atmosphere has brought us where we are now 30 years later and we are very proud of that. It has really been a great experience for us to work with all these people and we look forward to the many years to come.

Jeroen & Richard
